LEAP into Learning

Preschool starting at age 2.9

Pre-K starting at age 4

Philosophy

At **L.E.A.P. childcare** we support the James L. McKeown Boys & Girls Club's mission statement, "To inspire youth to find their greatness". We believe that you are never too young to discover what you are great at and how you learn best!

Each child is special and unique, and we strive to instill a positive self-image in everyone. We encourage an environment that focuses on learning through play and exploration. Through this, we also support and foster the social, emotional and physical development of children.

Objectives

1. To inspire youth to find their greatness through play and exploration of the world around them.
2. To enhance social, emotional and physical development of children through play.
3. To enhance language development through books, music, art and imagination
4. To provide an environment where children learn to interact, play, and problem-solve with other children.
5. To provide an environment with a positive balance between independent learning and structured learning.
6. To introduce fundamental skills needed before entering kindergarten.

Curriculum

L.E.A.P. childcare's curriculum in each classroom focuses on a balanced mix of structured teacher-directed activities and independent learning. We believe it is important for children to be given time each day to learn by exploration; whether that means inside with one

of our many learning manipulatives or outside discovering the world around them. The possibilities are endless!

Children are also given time each day for unstructured free play. During this time, children will not only be given more

opportunities to explore their environment and the materials in it, but this time will also promote the development of social skills, critical thinking and problem-solving skills. Unstructured free play is the perfect time for children to discover their interests and express themselves.

Preschool

Our preschool classroom will dedicate time each day to the "letter of the week". During this time children will focus on letter identification (uppercase and lowercase), letter sounds and beginning words.

Pre-K

Our pre-k classroom will dedicate time each day to focus on a special monthly unit. We will read books, learn new information and work on activities/projects relating to our unit.

School Calendar

L.E.A.P. childcare operates year round. We follow the Woburn Public Schools for closings, delayed openings, and early dismissals (relating to weather).

Our Program

L.E.A.P. childcare features:

- Bright, sunny and attractive classrooms in our childcare facility;
- Two nutritious snacks daily;
- At least 90 minutes per day of active playtime either in our new gym, or private outdoor play area;
- Seasonal family events;
- Swim lessons provided for our pre-k classroom September - June.
